TECH I USE NOW

React JS · Redux · JavaScript
TypeScript · GatsbyJS · Mui
Next.js · Flutter · Git
TailwindCSS · Styled Components

TECH I HAVE USED

Python · Ruby · Ruby on Rails
Flask · Elixir · Phoenix
Vue · VueX · MobX · Expo
React Native

SOFT SKILLS

Communication · Teamwork
Flexible · Time Management
Adaptability · Reliability

SPOKEN LANGUAGES

- English - Fluent / Native
- Bahasa Malaysia - Basic

PERSONAL PROFILE

Eager to learn, motivated and results-oriented software engineer with a diverse professional background, showcasing adaptability and a proven track record of success. With 4.5 years in the automotive industry, initially as a workshop manager/service advisor, successfully transitioned to the tech sector in 2018, dedicating 2.5 years to mentoring and training over 200 students while simultaneously contributing to internal software projects. Spent the last 2.5 years as a front-end developer at a dynamic startup, where I played a pivotal role in expanding opportunities for over 100,000 gig workers.

Currently seeking fresh challenges in an environment defined by a dynamic working culture. I am looking to contribute my skills to a team that cultivates growth and innovation, offering a supportive atmosphere that propels my career and technical skills to the next level. While my primary focus lies in front-end development, I am open to embracing the challenges of full-stack development.

WORK EXPERIENCE

Front End Senior Engineer II
GoGet, Kuala Lumpur, MY | 1st Feb 2023 - Present

- Demonstrated complete ownership of GoGet's Front End applications, proactively maintaining code quality, and continuously enhancing features to meet the highest industry standards.
- Mentored and guided junior developers, actively supporting their career progression through regular feedback and coaching sessions, resulting in sustained improvement in code quality and overall team performance.
- Collaborated closely with key stakeholders, including product managers and designers, to ensure efficient and timely delivery of features, while consistently upholding the highest standards of development practices.

Mid React Developer
GoGet, Kuala Lumpur, MY | Jun 2021 - 31st Jan 2023

- Spearheaded the development of the GoGet Progressive Web Application (PWA) platform and its code base, contributing to its successful implementation and evolution.
- Implemented and maintained robust deployment processes, adhering to industry best practices, to ensure the highest standards of code deployment.
- Collaborated closely with product stakeholders to align the development of new features with both business objectives and end user requirements, resulting in improved user experiences and increased business value.
- Demonstrated proficiency in Agile methodologies, actively participating in agile practices such as grooming, story pointing, and sprint planning to ensure timely delivery of projects within designated timelines.

Software Engineer / Teaching Assistant
NEXT Academy, Kuala Lumpur, MY | Oct 2018 - June 2021

- Delivered personalised educational, behavioural and emotional support to individual students to enable positive learning outcomes.
- Trained students in various programming languages and frameworks, ranging from HTML, CSS, JavaScript, Ruby and Python to ReactJS, React Native, Ruby-on-Rails and Flask.
- Executed redesign and overhaul to the structure and content for the 2-Week Front-end syllabus covering HTML, CSS & JavaScript.
- Continuously reviewed, updated and optimised course material to ensure it is up-to-date with the latest features for the associated technology stack.
- Trained 200 overseas students over 6 months via Zoom on how to launch and build eCommerce sites using WordPress CMS, Elementor and WooCommerce.
- Provided support and guidance to more than 200 students to develop and pitch software concepts, ideas and MVP's.
